

# AHMAD AWSAF BIN SHARIF

## Graphic Designer

### About Me

Creative and adaptable professional with over four years of graphic design experience, showcased through successful roles at Helix United and as a Fiverr freelancer. Adept at transforming ideas into captivating visuals, while my IT Prototypes tenure demonstrated versatile problem-solving. Currently pursuing Computer Science and Engineering at United International University, my sharp memory, imaginative thinking, and active listening drive innovative solutions and quick learning. Passionate about design and detail-oriented, I bring a unique blend of skills to contribute effectively in dynamic settings, combining creativity, technical proficiency, and a dedication to continuous growth.

### Experiences

#### Marketing Manager, IT Prototypes

Feb 2020 - Feb 2021

Dynamic professional with a year-long tenure as a Marketing Manager and Graphic Designer at IT Prototypes, an entrepreneurial IT venture. As the Marketing Manager, I strategically positioned the company's services, spearheading impactful marketing campaigns that resulted in heightened brand visibility and increased lead generation. Simultaneously, my role as a Graphic Designer allowed me to seamlessly fuse creativity with market insights, producing visual content that not only captured the essence of our offerings but also resonated with the target audience.

#### Graphic Designer, Fiverr

Feb 2021 - Feb 2023

Seasoned Graphic Designer with an extensive two-year tenure on Fiverr, a prominent freelance platform. During this period, I honed my design skills and developed a strong portfolio.

#### Head of the Graphic Department, Helix United

Jun 2023 - Current

Experienced Graphic Designer with a proven track record spanning four years in the field of design. I have been contributing my creative expertise as a Graphic Designer at Helix United, a dynamic football club, for the past three months. Proficient in translating concepts into captivating visual assets, my work encompasses a wide range of design projects that effectively communicate brand identity, engage audiences, and enhance overall aesthetics.

### Education

#### United International University

Bachelor of Science Computer Science and Engineering

Currently pursuing a degree in Computer Science and Engineering at United International University. Through this academic journey, I am gaining a solid foundation in fundamental computer science concepts, programming languages, and cutting-edge technologies.

#### Dr. Mahbubur Rahman Mollah College

Higher Secondary Certificate, Scienc

Accomplished my Higher Secondary Certificate (HSC) in the Science stream from Dr. Mahbubur Rahman Mollah College. This educational achievement signifies my dedication to academic pursuits and foundational knowledge in science.

### Awards

Recognized logo design winner in a prestigious contest hosted by the 'Biology Haters' group. Demonstrated design prowess by crafting a compelling and impactful logo that resonated with the group's identity and values.
